

WHAT'S THE DIFFERENCE?

LIBBY

- Offers different content than Hoopla
- You must place a hold if the material you want is already checked out
- Borrow limits are for items checked out at one time. If you have 10 checked out, you can return one early and check out another

HOOPLA

- Offers different materials than Libby
- Has downloadable movies and TV shows
- No holds necessary. If it's there, you can borrow it
- Borrow limits are the amount of items you can have during one month cycle, regardless of whether or not you return anything early
- Has a daily borrow cap (for the library collectively, not just you) that resets at midnight
