

Allendale Township Library Annual Report 2010

2010 was another amazing year filled with great books and fun activities at the library. We are always overwhelmed by what great library users we have in our community and how much they support their library on a daily basis.

Though the year seemed to fly by, there was still time to make good use of the library whether you enjoyed some good books, DVDs, CDs, participated in a program or class, or took advantage of free computer use. Circulation in 2010 totaled over 187,000 items and we saw more than 110,000 patrons visit us.

More people than ever attended our programs and experienced pirates visiting, pumpkins being decorated, movies shown in the park, chocolate tasting, and, of course, plenty of book discussing. The Library also made available downloadable books and audiobooks from our website 24/7 which has made it even easier to use the library from home. As always you can stop by our website at www.allendalelibrary.org or find us on Facebook to get the latest information about upcoming programs and services.

We look forward to a wonderful 2011 with your continued support! We are thankful to serve this incredible community and look forward to your feedback throughout the year.
